

2013 Rate Card

J-INTERSECT has three products and services that create high value-add, high return on resources, and high impact (the “3-Highs”) by assisting organizations to identify and implement global benchmarks and high value-add best practices.

Product/ Service	Description	Rate*
I. Customized Project Reports	Customized Project Reports (PRs) are requested from organizations seeking global knowledge in addition to completed Project Reports currently in the JIS Library. Customized Project Reports are generally completed within 90 days. Total satisfaction guaranteed.	US\$50,000 to US\$500,000 per PR.
II. Project Reports Library	The Project Reports Library contains previously completed customized Project Reports across all ten JIS Sectors immediately available for licensed use.	US\$5,000 to US\$50,000 per PR.
III. Training Programs	Training Programs include on-site and web-based customized and standard modules to support implementation of key performance indicators and high value-add best practices at a range of organizational levels including management, staff, and volunteers, both internally and at partner organizations.	Bespoke.

*Support available for philanthropic organizations seeking to improve performance through JIS products and services.
